

Abdullah Hosny

Front-End Developer (React JS || Next JS)

 (+20) 1150773568  abdalluhosny8@gmail.com  Egypt  GitHub  LinkedIn  Portfolio

PROFILE SUMMARY

Proactive and adaptable frontend engineer with a strong commitment to clean code and continuous learning. Proficient in React.js and Next.js, and dedicated to staying current with industry trends to effectively tackle complex challenges. Passionate about expanding my skill set and embracing innovation in software development.

TECH STACK

JavaScript, TypeScript, HTML, CSS, Next JS, React JS, Redux, Material-ui, ReactBootstrap, Tailwind CSS, Framer Motion, Nivo, Strapi, GIT, GITHUB

PROJECTS EXPERIENCE

E-commerce Application

I developed an e-commerce app with ReactJS, emphasizing user experience and performance optimization. Using techniques like code splitting and lazy loading, I improved load times and efficiency, **Frontend:** React.js, MUI, Redux, Framer Motion || **Backend In:** Strapi . [LINK CODE](#)

Our ECommerce Application

E-commerce app, focusing on user experience, and performance optimization

Frontend: ReactJS, Typescript, Redux Toolkit, Axios, ReactBootstrap, Framer Motion . [LINK CODE](#)

Digital Marketplace

Creating a digital marketplace with Next.js, focusing on user experience and performance optimization. Utilizing server-side rendering and efficient caching for swift loading, seamless interactions, **Frontend:** Next.js, TypeScript, React tRPC, Tailwind, MongoDB, Payload [LINK CODE](#)

Pokémon Gallery (ILLA TASK)

Pokémon Gallery written in React and TypeScript, featuring a Pokémon app with functionalities including listing Pokémon, displaying Pokémon details, and enabling Pokémon search. **Frontend:** React.js, MUI, Redux, Axios, Framer Motion, [DEMO](#) || [LINK CODE](#)

Animation Air Pods (baytAlebaa Task)

This application, Animation Air Pods, is dedicated to prioritizing user experience and optimizing performance through React.js

Frontend: React.js, MUI, Framer Motion [DEMO](#) || [LINK CODE](#)

Admin Dashboard

Admin dashboard with user-friendly interface, Nivo charts for dynamic data visualization, Full Calendar for scheduling and event management.

Frontend: React.js, MUI, Redux, Framer Motion, [DEMO](#) || [LINK CODE](#)

Fitness Application

Fitness App with React.js, TypeScript, Tailwind CSS, Framer Motion. Seamlessly integrate dynamic functionality and sleek design. Elevate user engagement with smooth animations for an unparalleled fitness experience

Frontend: React.js, TypeScript, Tailwind CSS, Framer Motion [DEMO](#) || [LINK CODE](#)

Ocean Landing Page

Application with Next.js, TypeScript, Tailwind CSS, and Framer Motion. Navigate seamlessly through a visually captivating interface. Dive deep into innovation, combining dynamic design and fluid functionality. **Frontend:** TypeScript, Tailwind CSS, Framer Motion [DEMO](#) || [LINK CODE](#)

Valorant Store

Valorant Store, a React.js-driven marketplace enriched with Material-UI (MUI). Seamlessly buy and sell gaming accounts in a secure, user-friendly environment. Elevate your gaming experience with an efficient and reliable platform.

Frontend: TypeScript, Tailwind CSS, Framer Motion [DEMO](#) || [LINK CODE](#)

EDUCATION

Cairo university | Bachelor of commerce – Accounting Major

2021– 2025

LALANGUAGES

Arabic: Native

English: Very Good
